

Shibaura Mechatronics Group offers total solutions, all the way from the development of high-tech manufacturing equipment through to value-adding customer service.

Shibaura Mechatronics Group brings core technologies cultivated over many years (including precision mechatronics and vacuum, cleaning, sputtering, bonding and laser technologies) to total solutions, ranging from the development of manufacturing equipment for flat-panel displays, semiconductors, media devices, electronic components and batteries, through to value-adding customer service. We give concerted thought to our customers needs and the challenges they face, offer products that exceed expectations, and aim to be a one-of-a-kind company that our customers cannot do without.

As innovative manufacturing, a manufacturer, we promote CSR-based management. Through reinforced corporate governance, and comprehensive risk management and compliance, we do all we can to ensure that Shibaura Mechatronics Group enjoys the trust of all of its stakeholders. Further to that, we channel our energy into assuring that we operate in harmony with the environment. The Group approaches development and manufacturing with a determination to reduce environmental loads, and to provide customers with manufacturing equipment that allows them to cut energy consumption in their own production activities (environmentally conscious products). Furthermore, in manufacturing equipment for solar batteries other and energy and environmental products, we make every effort to promote a business that contributes to mitigating global warming.

As we monitor these changing times, we delve deeper into the technologies we have cultivated and match them with new technologies, to assure our continued ability to offer products and services that meet the needs of the age. We also take steps to constantly refresh our thinking, and our determination to respond to customer requests with novel approaches.

We want to make further progress in contributing even more, to as many people as possible, through our products and activities. We ask all of you for your continued guidance and encouragement.

A handwritten signature in black ink, reading "Kenji Minami". The signature is written in a cursive, flowing style.

Kenji Minami
President and Chief Executive Officer
